### MANAGEMENT DISCUSSION & ANALYSIS

#### Economic review

India's economy picked up in Q4 FY 2015, driving growth for the full fiscal year to accelerate to a six year high.

According to the Economic Survey 2015-16, the Indian economy will continue to grow more than 7 per cent in 2016-17. The improvement in India's economic fundamentals has accelerated in the year 2015 with the combined impact of strong government reforms, RBI's inflation focus supported by benign global commodity prices.

With a stable political environment, this is probably the most conducive period for a steady pace of implementation of policy reforms. This will encourage private sector investment, creating the platform to utilize the country's advantageous demographic potential and lay the foundations for real GDP growth to move to higher levels. There should be definite and concrete measures to manage growth in rural wages in line with productivity, reduce the fiscal deficit through rationalization of expenditure and tax reforms and improve the business environment.

#### Real Estate Market

##### Commercial real estate

The real estate sector in India is being recognized as infrastructure service that is driving the economic growth engine of the country.

India's office space absorption during 2015 stood at 35 million sq ft – the second-highest figure in the country's history after 2011. The demand for office space in 2011 came from occupiers taking advantage of low rents after the global financial crisis. This time, however, it was the result of corporates implementing their growth plans.

Rents rose across Indian cities in 2015. The pace was faster in the secondary business districts (SBDs) and certain peripheral business districts (PBDs) of tier-I cities than in the established central business districts (CBDs). The micro-markets seeing more leasing activity in different cities in 2015 will continue to see action in 2016, while lesser-preferred locations will see a higher vacancy rate. As and when supply dries up and vacancy drops further, occupiers will start taking up spaces in these locations, as well.

Demand will remain consistent over most of 2016, with occupiers showing a positive bias. Given the low supply and continued demand for commercial spaces, corporate occupiers will continue to firm up their expansion plans. While 2016 will bring continued demand for leased spaces, quality supply will be lower. This means that unmet demand will reflect in higher occupancy of Grade-B office spaces. After the opening up of real estate sector to FDI, the profile of developers, as well as ownership patterns, will start changing.

##### Real estate capital markets

2015 has been an interesting year for capital market activities in real estate. While the PE focus continued to remain high on residential and office projects, entity-level investments and platform-level deals also came into the limelight, indicating increase in investor confidence. In terms of asset focus, residential projects attracted a considerable share of funding; however, equity investment in this space is still insignificant. Income-yielding office projects attracted a majority of equity investments. In terms of the geographical spread, focus was restricted to tier-I cities with NCR, Mumbai and Bangalore attracting a majority of investments (73%); reflecting learnings from past experience.

The challenges of demand-supply mismatch and high unsold inventory across the country remain, but the signs are nevertheless encouraging - cities like Mumbai, Bangalore, Pune and Hyderabad are slowly but surely crawling back to positive growth. 2016 may well bring an end to the long and painful journey this sector has had, and signal an upward growth trajectory. It will definitely mature further into an organised industry in which some lesser-organised players become casualties.

**Retail real estate**

We are witnessing the two big trends in the retail real estate :

1. Consolidation of retail real estate by brands and retailers who focused on their profit-making stores and closed down loss-making ones, and
2. The entry of institutional investors. On account of relaxation of sourcing norms, single-brand retail companies will find more reason to explore the Indian market.

Quality mall space is coming up with strong pre-commitments, indicating that retailers remain bullish about India's long-term consumption story. Retailers will start experimenting with formats and sizes for the same brands, adapting to markets as they start moving up the value chain. 2015 saw food and beverage (F&B) emerge as a strong category, and this will continue in 2016. Entertainment options will also improve, and technology-led retail will start entering in the single-brand retail store category.

**Warehousing**

The warehousing sector is reaching an inflection point and will take a huge leap forward once the goods and services tax (GST) is rolled out next year. Apart from GST, e-commerce is expected to significantly drive the demand for warehouses in India in the near future. With nearly 25% of all warehousing absorption being driven by e-commerce players, it is currently the biggest demand driver for the sector. This industry is expected to invest an additional USD 2-3 billion into warehousing over the next 2-3 years.

**Looking forward**

The real estate industry is maturing. Until 2014, it was unregulated, fragmented and highly inefficient. Though 2016 will bring in regulation, it will remain fragmented and moderately inefficient. We could see it become a well-regulated, consolidated and moderately efficient industry by around 2020. Growth in the Indian economy will definitely see favourable reflection in the real estate sector, as well.

**Mixed use project**

Your company has aligned with Fung Properties, part of the Hong Kong-based Li & Fung Group, for the purpose of developing a mixed use project in a 11 acre campus at Bangalore. Initially the idea was developing a portion of the campus in to a world market in line with other international world markets but considering the less appetite of investors and trading community, the idea has been dropped and now the venture is contemplating to develop the entire land parcel with major focus on residential and plans have been submitted for approval.

The Company also undertook a project at Karad, Maharashtra to construct a shopping centre through joint development which is expected to complete during the current financial year.

**Retail Infrastructure**

During the year under review, your company completed acquisition of retail space aggregating to 250,000 sq ft Ujjain, Madhya Pradesh. During the current financial year, the Company acquired 100% equity share capital of Naman Mall Management Co. Pvt. Ltd. (Naman), a company which owns a shopping mall cum entertainment centre at Indore with a total leasable area of 18761.78 sq mts.

The Company has aligned this business with Star Shopping Centres Private Limited (SSCPL), in which the Company holds 60% equity capital and is managing more than two million sq ft of retail space today in India. SSCPL has crafted a unique model, quite akin to the model of commercial engagement followed by international hotel management brands, by leveraging its deep understanding of the category retail infrastructure and its management.

**Risk**

**Business Risk:** The business of construction and development is heavily dependent on the performance of the real estate market in India and could be adversely affected if market conditions deteriorate. The real estate market is significantly affected by changes in government policies, economic conditions, demographic trends, employment and income levels and interest rates, among other factors. The development of real estate projects involves various risks including regulatory risks, financing risks and the risks that these projects may ultimately prove to be unprofitable.

**Economy Risk:** Economic and market conditions can adversely affect the performance of the Company. In particular, the decline in the performance of the global and Indian economies as a result of the economic downturn can reduce demand and occupancy levels in property markets. An increase in interest rates or an increase in the margin on which finance can be obtained may increase the Company and the Subsidiary's financing costs and such increase in interest rates may increase the cost of borrowing, which could have an adverse impact on the Company and the Subsidiary's business, financial condition and results of operations.

### **Financial Performance**

**Total Income:** The Company achieved total revenue of ₹ 9386.37 Lakhs during the financial year ended March 31, 2016.

**Operating Profit:** During the year financial year ended March 31, 2016, the Company achieved operating profit of ₹ 3801.65 Lakhs.

**Profit/Loss after Tax:** The Company recorded loss of ₹ 1507.30 Lakhs for financial year ended March 31, 2016.

### **Risk, Internal Control System and Adequacy:**

The Company has adequate internal control procedure commensurate with its size and nature of the business. The internal control system is supplemented by extensive internal audits, regular reviews by management and well-documented policies and guidelines to ensure reliability of financial and all other records to prepare financial statements and other data. Moreover, the Company continuously upgrades these systems in line with best accounting practices (in line with IFC pl add a line). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the standalone financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. **Emphasis of Matter**

We draw attention to the following matter in the notes to the standalone financial statements:

Sale of Investments

The disposal of investments held by the Company, including two subsidiary companies, was based on a valuation report obtained from Independent Chartered Accountant(s). The sale price was less than the cost of acquisition of said shares and consequently a loss of INR 54.05 crores was incurred, which has been disclosed as exceptional item in the Statement of Profit and Loss for the year ended March 31, 2016.

Deferred tax asset

It may be noted that Management believes the company will have sufficient future income to utilize the said asset. Accordingly, deferred tax asset of INR 62.05 crores has been recognized on brought forwards business losses and depreciation and timing difference between the depreciation as per the Companies Act and Income Tax Act, as at 31 March 2016.

Contingent Liabilities

Arbitration proceedings before the sole Arbitrator, appointed by the Hon'ble High Court of Calcutta, in respect of disputes arose out of termination of a license agreement related to a shopping mall, the Arbitrator has awarded a net amount of ₹ 12.91 crores to the Claimant after allowing certain counter claims of the Company.

The Company is in the process of filing an appeal / application against the award in terms of the applicable provision of law before the Hon'ble High Court of Calcutta. Hence, the said liability is in the nature of contingent liability.

Our opinion is not modified in respect of these matters.

### **Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of FUTURE MARKET NETWORKS LIMITED ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone\* financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note issued by ICAI.
